ACH Transfer Out Authorization - When you attempt to transfer money from your Card to your United States bank account (bank account you own) utilizing our ACH transfer feature, you are requesting an electronic transfer to your bank account and are authorizing us to facilitate such transfers. Upon your request, we will make the electronic transfer via the ACH system from the available funds on your Card to your United States bank account. You will be charged a service fee, if applicable, for all ACH transfer in accordance with the Fee Schedule. If you request an ACH transfer, we require that you provide us with the following information: (1) your bank name, (2) bank routing number, and (3) bank account number. You hereby warrant that all such information is correct. We shall have no liability whatsoever if you fail to provide the correct information for the ACH transfer. You agree that this ACH transaction complies with all applicable laws. You understand this authorization will remain in full force until the transaction is complete.

ClinCard Cardholder FAQ: U.S. Prepaid Visa®

How do I use the ClinCard prepaid debit card?

1. You may use the card everywhere Visa debit cards are accepted – in stores, online, or by phone.
 - For in-store transactions, insert the chip card into the terminal and select “credit” or “debit.”
 - Debit will require a Personal Identification Number (PIN) (see “How do I retrieve/change a PIN?”).
 - Get cash back when making a purchase (requires “debit” transaction to be selected & PIN entered)
 - Not all stores offer this option; stores may restrict how much “cash back” can be withdrawn, and amount withdrawn is subject to card's daily purchase limits.
2. Get cash using an ATM (requires PIN).
 - May incur a fee (see “Are there any fees when using the ClinCard prepaid debit card?”).
3. Get a cash disbursement at a Visa-accepting bank.
4. Transfer funds from the card to the bank using a Card to Bank (C2B) Transfer.
 - Transfer all available funds from the card account to a registered United States bank account; limited to available balance only (see “How do I transfer available balance from the card to my United States bank account?”).
 - See terms and conditions for “ACH Transfer Out Authorization” details.

How do I activate the ClinCard prepaid debit card?

- The card is automatically activated once your first payment/reimbursement is loaded.
 - Payments can only be loaded by the organization that provided the card.
- Sign the back of the card immediately upon receipt.
- You may now begin using the card in-store, online, or to make purchases by phone; simply select the “credit” payment option.
 - Merchants may automatically default transaction to “debit”; if so, request that the cashier cancel and re-run as a “credit” transaction.
 - Select merchants may no longer give customers, using a debit card with a chip, the option to change payment type to “credit”; in this case, it will require you to enter a valid PIN to complete transaction.
- To retrieve your PIN and use the card at an ATM or get cash back with the “debit” function, contact customer service (see “What customer service is available?”).
- Always protect your card by keeping it in a safe place. If your card is lost or stolen, immediately contact ClinCard Cardholder Support.
